Children's Art Studio

Members \$55 a month

Non-Members \$65 a month - includes material fee

Accepting new students at the beginning of each month.

Runs January - March.

Classes are designed to introduce children to visual arts and provide art enrichment beyond the school curriculum. A variety of media and techniques will be explored; special emphasis on drawing skills. Students learn the concept of drawing from a model, including pictures and/or simple objects. Throughout the process young artists are encouraged to develop their initial drawings into finished compositions. Media explored include markers, water-brushed markers, colored pencils, watercolor pencils, oil pastels, watercolor and acrylic paints, as well as scratch art, collage and print making.

POLYMER CLAY WEEKEND

Hana Gorman

Saturday & Sunday

January 28 & 29

10 a.m. - 4 p.m.

Members \$ 120

Non-members \$ 135

This two-day introductory polymer clay workshop is an intensive and condensed version of the traditional six week course. Polymer clay (trademarked as Fimo or Sculpey) is a pliable synthetic compound versatile enough to sculpt, carve, texture, paint, stamp, mold and layer into intricate patterns. It does not dry out and may be fired in a standard home oven.

Saturday class will be devoted to learning how to shade in clay ("Skinner Blend") and how to create intricate designs known as "millefiori canes". Practical applications for pen, tin or bead projects will take place on Sunday morning. Texturing techniques, use of metal foils and application of transfers to decorative tiles will take place in the afternoon.
